Summary

Director of Engineering with 14+ years in fintech and crypto. Doubled SwissBorg's engineering headcount while shipping regulatory-compliant identity systems (PSAN / MiCA), gamification features, and a Series A crowdfunding platform. Advocate for aviation-inspired operational discipline—structured briefings, blameless debriefs, continuous improvement. Author and podcast host on technical leadership. Fully remote since 2021, based in Lisbon.

Experience

SwissBorg, Director of Engineering

European leader in cryptocurrency investment with 900k+ users and €1.5B+ AUM.

- Sole Director in the engineering organisation, acting as the right hand of the Head of Engineering across 8 teams
- Directly managing 2 Engineering Managers and overseeing 6 additional teams indirectly (~17+ ICs)
- Setting delivery standards and driving Engineering strategy to address current and future business challenges
